

FCNVR40: Network Video Recorder

Intelligent video recorder for IP-networks.

Highlights

The FCNVR40 is a digital videorecorder for your network. With the FCNVR40 you can log video recordings triggered by external events.

Many sensors or interfaces can be used for triggering the video registration. Supports pretriggering.

Small dimensions, great performance and low energy use (can even be used with battery).

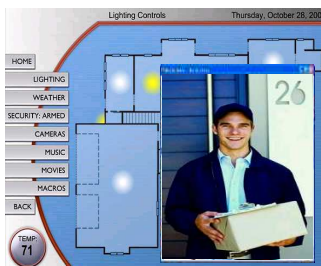

Reliable, flexible, and easy to integrate

Based on the embedded controller technology CER created an advanced video recorder. The NVR can be easily integrated in applications.

For higher picture quality the NVR supports the Motion Jpeg format.

Applications

- Link video registration to your burglar alarm.
- Log the entrance of your shop/building visitor.
- Extend access control with video logging
- Log cash register actions on video

Order info

FCNVR40 camera

Network Video Recorder; 40GB.
NO camera's included !

Software

- Equipped with Network Video Recording software

Hardware

- embedded controller; 1GHz CPU
- fanless
- harddisk; can be extended
- network: 10/100Mbps ethernet
- Dimension: 50H x275W x172D mm
- Material: aluminum, color black
- Compact, weight: ca. 2 Kg

Hardware accessories incl.

- Power supply 230V

Software/hardware limits

- max. 8 IP camera's
- 40 GB storage

Camera support

- many camera models supported
- PTZ supported for some cam types
- camera's NOT included

Options.

- available with other disksizes.
- Also available in outdoor version with WiFi.
