

# KNX/EIB converter: software option for FieldCommander® devices

## Highlights

KNX (Formerly known as EIB; European Installation Bus and sometimes also being called Instabus) is a popular protocol (european standard Cenelec **EN50090** and international standard **ISO/IEC 14543-3.**) that is being used in home&building automation.

The KNX/EIB software option is a protocol converter, enabling the FieldCommander software to link to KNX/EIB devices.

## Applications: Communication

- Extend your KNX-device with the FieldCommander communications options, like email; FTP; SMS or remote control.

## Visualization

- Using FieldCommander and this software option it is now easy to link your KNX device and visualize the system on a webpage.

## Integration

- Your KNX device can now be integrated with other systems.

## Monitoring, alerting and reporting

- Monitor KNX devices and extend them with alerting and reporting possibilities using the FieldCommander technology.

## FieldCommander script

- script example included
- support for many dedicated FieldCommander functions included.

### Extra/New

- Communicate with KNX devices
- Support extra functionality to your KNX devices
- Support linking systems

### Enable integration

- Link KNX devices to all other kind of devices FieldCommander is supporting. FieldCommander can be your gateway to other systems

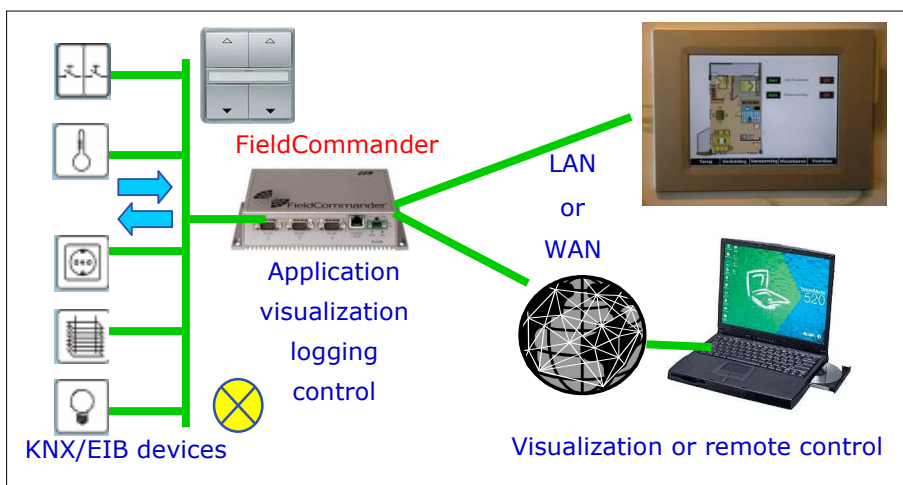

### Support details

- support KNX for sensors and actors
- Support an UTP-type KNX-bus.
- 1 license for 1 FieldCommander; no license restrictions for KNX devices.

### Content

- Protocol converter software
- Driver software for bus interface
- KNX adapter (interface) included. Mini-PCI (HWP10) based.

## System requirements:

### Communication

- at least 1 free mini-PCI connector is required; HWP10 based.

### FieldCommander software

- at least 1 free convertercomponent in your FieldCommander sw is required (depending on application more free slots can be required).

### Important !

Options must be ordered with a FieldCommander system.  
Option software will be installed on 1 FieldCommander system.  
Several options can be installed on 1 FieldCommander system.  
For max. number of options please check your system spec.

KNX is a registered trademark of Konnex Association.
